

**DEPARTMENT OF TRANSPORTATION****Federal Highway Administration****Notice of Final Federal Agency Actions on Proposed Highway in Illinois**

**AGENCY:** Federal Highway Administration (FHWA), DOT.

**ACTION:** Notice of Limitation on Claims for Judicial Review of Actions by FHWA and other Federal Agencies.

**SUMMARY:** This notice announces actions taken by the FHWA and other Federal agencies that are final within the meaning of 23 U.S.C. 139(l)(1). The actions relate to a proposed highway project, Willow Road (FAP 305) between Illinois Route 43 (Waukegan Road) and Interstate 94 (Edens Expressway) in Cook County, Illinois. Those actions grant licenses, permits, and approvals for the project.

**DATES:** By this notice, the FHWA is advising the public of final agency actions subject to 23 U.S.C. 139(l)(1). A claim seeking judicial review of the Federal agency actions on the highway project will be barred unless the claim is filed on or before March 10, 2013. If the Federal law that authorizes judicial review of a claim provides a time period of less than 150 days for filing such claim, then that shorter time period still applies.

**FOR FURTHER INFORMATION CONTACT:** Mr. Norman R. Stoner, P.E., Division Administrator, Federal Highway Administration, 3250 Executive Park Drive, Springfield, Illinois 62703, Phone: (217) 492-4600, Email address: [Norman.Stoner@dot.gov](mailto:Norman.Stoner@dot.gov). The FHWA Illinois Division Office's normal business hours are 7:30 a.m. to 4:15 p.m. You may also contact Mr. John A. Fortmann, P.E., Illinois Department of Transportation, Deputy Director of Highways, Acting Region One Engineer, 201 West Center Court, Schaumburg, Illinois 60196, Phone: (847) 705-4000. The Illinois Department of Transportation Region One's normal business hours are 8 a.m. to 4:15 p.m.

**SUPPLEMENTARY INFORMATION:** Notice is hereby given that the FHWA and other Federal agencies have taken final agency actions by issuing licenses, permits, and approvals for the following highway project in the State of Illinois: reconstruct and widen Willow Road (FAP 305) from Illinois Route 43 (Waukegan Road) to Interstate 94 (Edens Expressway), a distance of approximately 1.8 miles including replacing the bridge over the Middle Fork North Branch of the Chicago River. The actions by the Federal agencies, and the laws under which such actions were

taken, are described in the Environmental Assessment (EA) for the project approved on March 28, 2012, the Finding of No Significant Impact (FONSI) issued on September 14, 2012, and in other documents in the FHWA administrative record. The EA, FONSI, and other documents in the FHWA administrative record file are available by contacting the FHWA or the Illinois Department of Transportation at the addresses provided above. The EA and FONSI and all other supporting documentation can be viewed and downloaded from the project Web site at [www.willowroadfuture.org](http://www.willowroadfuture.org).

This notice applies to all Federal agency decisions as of the issuance date of this notice and all laws under which such actions were taken, including but not limited to:

1. *General:* National Environmental Policy Act (NEPA) [42 U.S.C. 4321-4351] Federal-Aid Highway Act [23 U.S.C. 109 and 23 U.S.C. 128].
2. *Air:* Clean Air Act [42 U.S.C. 7401-7671(q)].
3. *Land:* Section 4(f) of the Department of Transportation Act of 1966 [49 U.S.C. 303 and 23 U.S.C. 138].
4. *Social and Economic:* Civil Rights Act of 1964 [42 U.S.C. 2000(d)-2000(d)(1)].
5. *Historic and Cultural Resources:* Section 106 of the National Historic Preservation Act of 1966, as amended [16 U.S.C. 470(f) *et seq.*]; Archaeological and Historic Preservation Act (AHPA) [16 U.S.C. 469-469(c)].
6. *Wildlife:* Endangered Species Act [16 U.S.C. 1531-1544 and Section 1536]; Migratory Bird Treaty Act [16 U.S.C. 703-712].
7. *Wetlands and Water Resources:* Clean Water Act (Section 401 and 404) [33 U.S.C. 1251-1377]; Wild and Scenic Rivers Act [16 U.S.C. 1271-1287].
8. *Executive Orders:* E.O. 11990 Protection of Wetlands; E.O. 11988 Floodplain Management; E.O. 12898 Federal Actions to Address Environmental Justice in Minority Populations and Low Income Populations.

(Catalog of Federal Domestic Assistance Program Number 20.205, Highway Planning and Construction. The regulations implementing Executive Order 12372 regarding intergovernmental consultation on Federal programs and activities apply to this program.)

**Authority:** 23 U.S.C. 139(l)(1).

Issued on: October 1, 2012.

**Norman R. Stoner,**  
Division Administrator, Springfield, Illinois.

**DEPARTMENT OF TRANSPORTATION****Pipeline and Hazardous Materials Safety Administration**

[Docket ID PHMSA-2012-0244]

**Pipeline Safety: Notice of Public Meeting on Pipeline Data**

**AGENCY:** Pipeline and Hazardous Materials Safety Administration (PHMSA), DOT.

**ACTION:** Notice of public meeting.

**SUMMARY:** PHMSA and the National Association of Pipeline Safety Representatives (NAPSR) are sponsoring this public meeting to discuss how pipeline data is currently used by stakeholders and identify potential improvements in pipeline safety performance measures. PHMSA pipeline safety regulations require integrity management program performance measures for gas distribution, gas transmission, and hazardous liquids pipelines. The National Transportation Safety Board (NTSB) and the U.S. Department of Transportation's (DOT) Office of the Inspector General have recommended that PHMSA improve pipeline safety performance measures and generate meaningful metrics. This meeting provides an opportunity for pipeline safety stakeholders to suggest improvements to existing performance measures and new measures representing meaningful pipeline safety metrics. The meeting will include breakout sessions on voluntary reporting, data discrepancies, data collected but not needed, and performance measures.

**DATES:** The public meeting on pipeline data will be held on Monday, October 29, 2012, from 1 p.m. to 5:30 p.m. and Tuesday, October 30, 2012, from 8 a.m. to 5 p.m. Name badge pickup and onsite registration will be available starting at 12:30 p.m. on October 29 and 7:30 a.m. on October 30.

**Registration:** Please register at <https://primis.phmsa.dot.gov/meetings/MtgHome.mtg?mtg=81>. Please note that the meeting will be webcast, including the voluntary reporting breakout on October 30. The webcast link will be posted on the registration Web page prior to the event.

**ADDRESSES:** The public meeting will be held at the Hyatt Regency Washington on Capitol Hill, 400 New Jersey Avenue NW., Washington, DC 20001, phone: 888-421-1442. Please contact the Hyatt Regency before October 16, 2012, to reserve a room in the "US DOT" room block by phone or at <https://resweb>.

[passkey.com/Resweb.do?mode=welcome\\_gi\\_new&groupID=16450837](http://passkey.com/Resweb.do?mode=welcome_gi_new&groupID=16450837). Please contact the Hyatt Regency for information on facilities or services for individuals with disabilities or to request special assistance during these public meetings. The meeting room will be posted at the hotel on the days of the workshop.

**FOR FURTHER INFORMATION CONTACT:** Blaine Keener at 202-366-0970 or by email at [blaine.keener@dot.gov](mailto:blaine.keener@dot.gov).

**SUPPLEMENTARY INFORMATION:**

PHMSA will be holding this public meeting to provide an open forum for exchanging information about how pipeline data is used by stakeholders and how performance measures could be improved. The NTSB and the DOT Office of the Inspector General have recommended that PHMSA improve pipeline safety performance measures and generate meaningful metrics. Various stakeholders, including Federal and state regulatory agencies, industry, advocacy groups and the media often use data collected by PHMSA and made publicly available to describe the reliability of the pipeline infrastructure, portray safety trends, or identify emerging safety concerns. Further, this data is often used as part of evaluating the safety performance of individual companies, the industry as a whole, and the effectiveness of the regulatory process.

PHMSA regulations require integrity management program performance measures for gas distribution pipelines (49 CFR 192.1007(e)), gas transmission pipelines (49 CFR 192.945) and hazardous liquids pipelines (49 CFR 195.452(k)). The information exchanged at this public meeting will help inform PHMSA as rulemakings or information collections are considered to improve integrity management performance measures and establish new performance measures for aspects of pipeline safety other than integrity management programs.

The keynote speaker will be NTSB member Mr. Mark Rosekind. Presenters will include PHMSA, NAPSR, the Pipeline Safety Trust, and representatives from the pipeline industry. As speakers are identified by name, the agenda on the registration Web page will be updated. PHMSA invites all stakeholders to actively participate in the meeting and specifically engage in thoughtful input and discussion during the topic specific breakout session.

The overall objectives of the meeting are to:

1. Determine how stakeholders, including PHMSA, industry, and the public use the data.
2. Determine how industry and PHMSA currently measure performance, how performance measures could be improved, and what additional data is needed to do so.
3. Determine the best method(s) for collecting, analyzing, and ensuring transparency of additional data needed to improve performance measures.
4. Summarize the data PHMSA currently collects, who we collect it from, and why we collect it.
5. Discuss data quality improvement including past efforts and future opportunities as well as universally understood definitions.

PHMSA is preparing a document summarizing the pipeline data currently collected by PHMSA. This document will be available on the registration Web page by October 22, 2012. All presentations made during the meeting will be available on the registration Web page a few days after the meeting ends.

**Pipeline and Hazardous Materials Safety Administration**

[Docket No. PHMSA-2012-0201]

**Pipeline Safety: Communication During Emergency Situations**

**AGENCY:** Pipeline and Hazardous Materials Safety Administration (PHMSA); DOT.

**ACTION:** Notice; Issuance of Advisory Bulletin.

**SUMMARY:** PHMSA is issuing this Advisory Bulletin to remind operators of gas, hazardous liquid, and liquefied natural gas pipeline facilities that operators should immediately and directly notify the Public Safety Access Point (PSAP) that serves the communities and jurisdictions in which those pipelines are located when there are indications of a pipeline facility emergency. Furthermore, operators should have the ability to immediately contact PSAP(s) along their pipeline routes if there is an indication of a pipeline facility emergency to determine if the PSAP has information which may help the operator confirm an emergency or to provide assistance and information to public safety personnel who may be responding to the event.

**FOR FURTHER INFORMATION CONTACT:** John Gale by phone at 202-366-0434 or by email at [john.gale@dot.gov](mailto:john.gale@dot.gov). Information about PHMSA may be found at <http://phmsa.dot.gov>.

**SUPPLEMENTARY INFORMATION:**

**I. Background**

Federal regulations for gas, liquefied natural gas (LNG), and hazardous liquid pipeline facilities require operators to have written procedures for responding to emergencies involving their pipeline facility. The regulations further require that operators include procedures for planning with and notifying local emergency response and other public officials to ensure a coordinated response. Under 49 CFR §§ 192.605, 192.615, 193.2509, and 195.402, pipeline facility operators must include provisions for coordinating with appropriate fire, law enforcement, emergency management, and other public safety officials in their emergency plans. Immediate contact by pipeline facility operators with local emergency responders located in potentially affected areas provides for appropriate, more coordinated and effective response to emergency situations involving pipelines, and can minimize potential injury, death and environmental damage.

Under §§ 192.616 and 195.440, pipeline facility operators must also develop and implement, and sustain a written public education program that follows the American Petroleum Institute's (API) Recommended Practice (RP) 1162. Incorporated by reference into §§ 192.616 and 195.440, API RP 1162 further requires operators to provide notice of, and information regarding their emergency response plans to appropriate local emergency officials. These response plans should include information about how emergency officials can determine potential pipeline related risks, and implement appropriate response plans.

In addition, on December 11, 2011, the National Transportation Safety Board (NTSB) issued safety recommendations following its investigation of the September 9, 2010, natural gas pipeline rupture in the city of San Bruno, CA. Included in these recommendations was NTSB Safety Recommendation P-11-9, which suggested that PHMSA require operators of gas and hazardous liquid pipelines "to ensure that their control room operators immediately and directly notify the 9-1-1 emergency call center(s) for the communities and jurisdiction in which those pipelines are located when a possible rupture of any pipeline is indicated." Pipeline facility
